Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Ffooks (US 3,547,301). The patent to Ffooks discloses a water ingress detection system comprising at least one deflector (at reference numeral 11) securable to the underside of a vessel (4), a conduit (12) coupled to the deflector for leading water away from the exterior surface of the vessel and a water-sensing device (13) attachable to the conduit (12) and having at least one signal output portion disposed externally of the casing for signaling the presence of water, i.e., the automatic activation of the pump (13) due to the presence of water; see col. 4, lines 13-22.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3753

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ffooks. It would have been an obvious design choice to one of ordinary skill in the art at the time of the invention to enlarge the mouth portion of the conduit (12) of Ffooks for the purpose of increasing the amount of water flowing through the conduit at the inlet.

Allowable Subject Matter

Claims 17-21 and 23-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 28-35 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
